

IWF 2018 - Feltkütür was present at the Richelieu's booth.

The International Woodworking Fair (IWF) trade show opened their doors on August 22nd and ended on August 25th. With more than 1,000 exhibitors, the attendees had the chance to look at a variety of new products and business opportunities. Known as the top woodworking trade shows in the world for the furniture manufacturing, architectural woodwork, custom and general woodworking industries, this year's edition offers more than we could expect.

Feltkütür's team was well prepared to discuss with participants and to present the product collection to all people who were interested in this new market. Many projects were discussed during the four-day trade show, mostly for acoustic and aesthetic solutions for restaurants, music studios, work spaces, etc. Our team appreciated all those exchanges with the attendees.

Thanks to our distributor Richelieu that has put forth our collection in many strategic locations in the booth. Hopefully this trade show helped you to continue your acoustic or design projects. Feltkütür will be participating to many other expositions with our partner Richelieu.

You are invited to come and see us during the upcoming exhibitions.
