

*The Feltkütür team is pleased to announce you about its new webzine named the “En vogue”. As its name points out clearly its meaning, a webzine indicates the transposition of a magazine on a website without printed counterparts.*

*Our webzine will suggest you another point of view around the universe of Feltkütür. Our teams will discuss over different subjects and will expose news about our firm, our production, our projects, our events, our technical performance, also about the design, the acoustics and more... We will broadcast some original and interactive information in our regular publications.*

*We highly suggest you to quickly follow our sources of social media and do not hesitate to connect with us!*

*Regards,*

*The Feltkütür team.*
